- Colleges are looking for 2 years of the same foreign language, so that will account for 4 open slots at some point
- Band, Choir, Yearbook, Studio,...are full year programs, so they will take up 2 blocks (or one bell all year)
- Always check to see what prerequisites are needed for any class you want to take.
- Go through the Course Catalog & see what higher level classes you'd like to take & then plan out what prerequisites you need to get to those classes.
- If you take a class (ex. Financial Lit) in the summer, that will free up one block during Sophomore year.
